beauweise@gmail.com · (612) 986-1316 · GitHub: [github.com/beauweise](https://github.com/beauweise)

## Skills:

<ul style="list-style-type: none"><li>• React</li><li>• React-Redux</li><li>• Node.js</li><li>• JavaScript</li><li>• SQL</li><li>• HTML5</li><li>• Bootstrap</li></ul>	<ul style="list-style-type: none"><li>• Express.js</li><li>• CSS</li><li>• Microsoft Visual Studio Code</li><li>• AJAX</li><li>• Zoom</li><li>• Slack</li><li>• GitHub</li></ul>
--	--

## Experience:

### Prime Digital Academy

August 2020- January 2021

#### **Student**-Full Stack Software Developer

Solo Project: [github.com/beauweise/solo-project-musky-mayhem](https://github.com/beauweise/solo-project-musky-mayhem)

- Created a full stack software application fishing journal for users to track and access their fishing trip history.
- The application stores all user entered data in a history page. The user can add, edit, and delete this information. The user can use a filter function on the history page to review specific events.
- Technologies used: React.js, React-Redux, SQL, Node.js, Javascript, Bootstrap, GitHub

### RAM General Contracting, Inc.

Project Coordinator/Estimator

October 2013-June 2020

- Evaluated civil and structural project plans
- Created and managed 3D site models for complex excavating projects using Trimble Business Center-HCE
- Managed all GPS controller software
- Coordinated and communicated with subcontractors and contractors to discuss project needs
- Oversaw site projects in conjunction with Project Manager
- Managed multiple excavation crew schedules

**Weatherford International**

Logging Specialist

February 2013-July 2013

- Communicated geological drilling information
- Monitored rig functions, operations, and downhole conditions

**Education:****Prime Digital Academy**

January 2021

Certificate – Full Stack Software Engineering

**Minnesota State University, Mankato**

Bachelor of Science, Earth Science - Geology Option

May 2012

Minor in Geography
